EDUCATION

University of Pennsylvania

Philadelphia, PA

Master of City Planning (Concentration in Smart Cities)

Expected May 2027

- **Relevant Courses:** Land Use and Modeling, Public Policy Analysis, Statistics and Data Mining, AI for Urban Sustainability, Geospatial Data Science in Python

University of California, Irvine,

Irvine, CA

B.A. in Urban Studies and B.A. in Criminology, Law & Society (With Specialization in GIS)

June 2025

- **GPA:** 3.92/4.0
- **Merit Award:** Campuswide Honors Collegium Scholar, Regents Scholar, Dean's Honor List
- **Relevant Courses:** Spatial Analysis, Advanced GIS, Environmental Sustainability, Climate and Policy

WORK EXPERIENCE

TDTC Global-Property Development

Philadelphia, PA

Geospatial Analyst

Summer 2026

- Conducted site-suitability due diligence for potential data center development, using GIS to assess parcel buildability, flood risk, utility access, zoning/ETJ status, and development constraints.
- Built ArcGIS parcel maps and site summaries by combining property, floodplain, elevation, infrastructure, transportation, and zoning data for deep analysis.
- Produced concise feasibility advisories that helped the team prioritize viable sites early and avoid high-risk parcels.

Law Office of Bruce C. Bridgman

Irvine, CA

Legal Assistant

Jan 2024-Mar 2024

- Researched zoning, land use, municipal compliance, and property-related regulatory frameworks to support legal and planning analysis.
- Drafted 40+ legal memoranda and organized 100+ documentary evidence records into clear written summaries for regulatory review and stakeholder communication.

PROJECT EXPERIENCE

Packer Park Stadium District Analysis

Philadelphia, PA

Studio Project

Spring 2026

- Built geospatial database in ArcGIS Pro integrating parcel data, energy/environmental networks, demographic data, and transportation to evaluate the site.
- Quantified land use distribution and development intensity to analyze stadium redevelopment compatibility, producing site suitability maps and spatial overlays to identify constraints and opportunity areas.

Consumer Debt and Legal Aid Mapping

Orange County, CA

GIS Research Project, Public Law Center

Winter 2024

- Conducted GIS analysis of client records and demographic data to identify financial patterns and consumer debt-related legal need disparities across Orange County.
- Created an interactive Story Map that translated GIS analysis into a user-friendly, visual tool for identifying underserved communities and supporting outreach strategy

Housing Price & Property Value Prediction

Philadelphia, PA

Research Project

Fall 2025

- Built and compared housing price prediction models in R to estimate Philadelphia residential sale prices using parcel-level, structural, neighborhood, and spatial variables.
- Applied spatial diagnostics and mapping to identify geographic patterns in property values, model residuals, and neighborhood-level price drivers with results visualized through professional mapping for property-market analysis.

SKILLS

- **Technical Skills:** ArcGIS Pro, ArcGIS Online, R (tidyverse, dplyr, sf), Microsoft Office (Word, Excel, PowerPoint), Python, Adobe software, Rhinoceros
- **Language:** Bilingual in English and Mandarin, basic in Spanish, Korean, and Japanese
- **US Citizen:** Authorized to work in the United States without sponsorship.
